THE TRAINING:

The "Wastewater Certification Training Courses" will give participants the opportunity to take a comprehensive course to prepare for the Wastewater or Lagoon certification test given by NDEQ.

The **mechanical course** will be of interest to utility operators who want a Grade 1 license, a Grade 2 license or lagoon certification. The **lagoon course** will be of interest to utility operators who want only lagoon certification.

NOTE for **brand new wastewater operators**: It would be to your advantage to work a **MINIMUM of 6 months** and at the same time get the required manuals and study before taking a course. Then when you take the course you will be better prepared to understand and work with the material.

Be sure to check to see if you have the required manuals. If not, order them and they will be shipped to you ahead of class so you can begin previewing and studying the material.

PRE-REGISTRATION and **PRE-PAYMENT** are **REQUIRED** as the classes are **limited to 25**.

A reminder will be sent out before the class. If for some reason you cannot attend, please notify NeRWA as soon as possible. If you have any questions, you may call our office at 402-443-5216 or 800-842-8039.
